Office Action Summary	Application No. 10/617,477	Applicant(s) LIPSCOMB ET AL.	
	Examiner Dolores R. Collins	Art Unit 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received
4/25/07.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all
obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 7 & 31-40 are rejected under 35 U.S.C. 103(a) as being
unpatentable over Flannery (393).

Regarding claims 7, 31-32, 37-40

Flannery teaches a table, an opaque tabletop, a dealer, a plurality of
player positions, a translucent planar window with a light source (see figure 1 and
[0023]. Flannery fails to teach that his light window extends around the game
table. It would have been obvious to one of ordinary skill in the art at the time the

Art Unit: 3711

invention was made to place the light source anywhere desired or expedient on the table. Such would be considered a design issue and would present little or no difficulty to one of ordinary skill.

Regarding claims 33-34

Examiner takes official notice that game tables are known to have rigid plates extending around them with pads covered by various choices of desired materials.

Regarding claims 35-36

Examiner takes official notice that windows made of glass; Plexiglas and various types of reflective material(s) are known in the art. The use of a milk-colored Plexiglas would be a matter of design choice and would present little or no difficulty to one of ordinary skill in the art.

Allowable Subject Matter

Claims 9-10 are allowed.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are not considered persuasive. Applicant has amended independent claims to include the word continuously. This merely teaches that the light stays on all the time and is a function of the light source and its' intended use. Flannery's light is capable of being continuously lit. Applicant has presented all apparatus claims but has failed to demonstrate criticality of the light sources function of being continuously illuminated. Further the limitation of continuous illumination appears to be new matter.

This action is made final.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3711

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
